

# APPRENTICESHIP IN ECOLOGICAL HORTICULTURE

## 2018 HOUSING ADDENDUM

UNIVERSITY OF CALIFORNIA, SANTA CRUZ

---

The Apprenticeship program will have 36 tent cabin spaces for the 2018 apprentices.

In addition to the 36 tent cabin spaces, there will be an additional 3 apprenticeship slots available to people who choose to live off-campus (see notes below).

Please check only one of the three (3) options listed below:

In submitting my application,

- I am only interested in living on the CASFS Farm in an apprentice tent cabin.
- My first choice is to live on the CASFS Farm in an apprentice tent cabin, but if that option is not possible, I would find my own housing off-campus.
- I am only interested in living off-campus.

### NOTES:

The tuition cost remains the same (\$6,000 for 2018) whether or not you choose to live in a tent cabin or off campus.

If you choose to live off-campus, you are responsible for finding and paying for your own housing. The Apprenticeship program does not have enough staffing to provide assistance in this area, but the UCSC Campus Rentals Office is a great resource (it is available to Extension students for \$10 for 30 days).

There will be a \$100 refundable security deposit for the tent cabins.
