

UC SANTA CRUZ FARM & GARDEN

Organic Since 1967

2018 Floral Offerings

The UCSC Farm & Garden is first and foremost a teaching farm, dedicated to training the next generation of responsible soil stewards... *and farmer-florists*. We sell organically grown flowers from our fields and gardens for *extra* special events.

Our bulk buckets of seasonal blooms for DIY arranging are perfect for folks who are inspired to make their events personal and unique. Each bucket holds 80-120 stems of a mixture of focal flowers, accent flowers, filler and foliage, and makes 4 to 5 medium size bouquets or centerpieces. This is a great option for those on a budget or who love the idea of arranging as a hands-on activity.

Buckets of Blooms

Custom colors	\$75
Farmer's Choice	\$60

Each bucket makes 4 to 5 medium size bouquets or centerpieces.

If you prefer that we arrange for you, we also design handcrafted arrangements. Prices for arrangements depend on size & flower preference, but generally run \$50-\$150. Because ours is a teaching farm, we have limited time for design services and consultations. At this time, we do not offer flower crowns, boutonnieres, garlands, etc., but we are happy to refer you to local florists who can serve your needs.

Handcrafted Bouquets\$50-150

For bridal bouquets, bridesmaids' bouquets, or to put in your own special vase.

The peak of our growing season begins in mid June and tends to run through October. We have limited offerings February through May. We will do our best to accommodate color and flower preferences, but we cannot guarantee them. Whatever your order, you will receive extraordinary, fresh, organic blooms that will make your event extra special.
